1. AIM/OBJECT/PURPOSE

This instruction is a guide prepared for students to participate in the university's wireless network system from all their devices.

2. INCLUSION/SCOPE

It covers 2020 wireless student network users of our university.

3. **RESPONSIBILITIES**

BIDB is responsible for the preparation and updating of this instruction. Responsibilities for the implementation of the Instruction are specified in the instruction.

4. **DEFINITIONS**

4.1 BİDB: Bilgi İşlem Daire Başkanlığı

5. APPLICATION/USAGE

5.1 Wi-Fi Network Search

All devices using our university's 2020 wireless student network must have their Wi-Fi scans enabled. After the Wi-Fi is enabled, they must meet the connection criteria in accordance with the operating system of their devices.

5.1.1 For Windows Operating System;

On a computer with Windows 10 operating system, click on the "wireless connection/wi-fi" icon in the lower right corner of the computer and then select 2020 from the networks used here. If a screen like "Continue connecting?" appears, please confirm "Connect" and continue.

5.1.3. For Android Operating System;

Enter the settings on your Android phone and select 2020 from the networks listed here. The interfaces may differ on different Android phones. After clicking 2020 network, check that the settings you see are the same as the screenshot below. Select the "**MSCHAPV2**" option for "**Phase 2**" authorization. If "**Phase 2**" does not appear on this screen, click on "See more" and select from there. After making the selection, enter your UMIS username and password in the "ID" and "Password" sections. Then click on the "Connect" button.
